

Rakshit Verma

rakshitverma1612@gmail.com — +91 6367905839 — GitHub — LinkedIn

Summary

Computer Science undergraduate with strong interest in **Machine Learning, Data Science, and Artificial Intelligence**. Experienced in building predictive models using **Python** and **Scikit-learn** with exposure to deep learning through project-based work. Skilled in **data preprocessing, exploratory data analysis (EDA), feature engineering, and model evaluation**. Seeking opportunities in **Data Science and Machine Learning** internships.

Technical Skills

Programming Languages	Python, C++, SQL
Machine Learning	Scikit-learn, Model Evaluation, Feature Engineering, Introduction to Deep Learning, CNN (basic), TensorFlow/Keras (project experience)
Data Science	Pandas, NumPy, Matplotlib, Seaborn, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization
Tools & Platforms	Git, GitHub, Jupyter Notebook, Google Colab, Streamlit
Core Concepts	Data Structures and Algorithms, Probability, Statistics, Linear Algebra, Calculus

Projects

AI-Based Cardiovascular Disease Predictor Sep 2024 – Dec 2024

Python, TensorFlow, VGG16, Streamlit

- Built a deep learning model using **VGG16 CNN architecture** achieving **87% prediction accuracy**
- Processed and augmented a dataset of **87,000+ medical images..**
- Implemented preprocessing techniques including **normalization and data augmentation**.
- Developed a **Streamlit web application** for real-time cardiovascular disease prediction.

AI Personal Companion (Conversational AI) Feb 2025 – Apr 2025

Python, Google Speech API, Coqui TTS

- Developed a voice-enabled conversational AI assistant using speech recognition and text-to-speech synthesis.
- Integrated **Google Speech Recognition API** and **Coqui TTS** for natural voice interaction.
- Optimized response time and improved speech clarity through testing and tuning.
- Improved usability and interaction quality of the AI assistant.

Open Source Contribution

GirlScript Summer of Code (GSSoC) 2025

- Contributed to open-source repositories by fixing issues and improving documentation.
- Collaborated with developers using Git-based workflows and pull requests.
- Participated in issue tracking and feature improvements for community projects.

Experience

Design Team Core Member – ANTERIX Club Mar 2025 – Jul 2025

VIT Bhopal University

- Designed promotional graphics and posters for technical workshops and events.
- Collaborated with marketing teams to improve event visibility.
- Contributed creative ideas for increasing student engagement in technical activities.

Education

VIT Bhopal University

Bachelor of Technology in Computer Science

Expected Graduation: May 2027

Achievements

- Participated in **GFG Vultr Cloud Innovative Hackathon**.
- Solved **200+ Data Structures and Algorithms problems**.

Certifications

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate**
Oracle University Oct 2025
- **Machine Learning** – NPTEL (IIT)
- **The Bits and Bytes of Computer Networking** – Google (Coursera)
