SUMMARY

Computer Science student with hands-on experience engineering machine learning solutions. Skilled in leveraging Python, Scikit-learn, and Matplotlib to build and train robust models, analyze complex datasets, and visualize actionable insights. Eager to contribute to a forward-thinking team through a challenging data science opportunity.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL

Deep Learning Frameworks: TensorFlow, PyTorch, Keras, Caffe

Libraries & Tools: NumPy, Pandas, Scikit-learn, Seaborn, Jupyter Notebook, Google Colab

PROJECTS

AI-Based Cardiovascular Disease Predictor

Sept 2024 – Dec 2024

Deep Learning Project : Python, TensorFlow, Keras

- Engineered a VGG16-based deep learning model, achieving 87 percent accuracy in predicting cardiovascular disease.
- Executed comprehensive preprocessing and augmentation on a dataset of over 87,000 images to enhance model robustness.
- Launched an interactive web application using Streamlit for real-time disease detection from user-uploaded images.

AI Personal Companion

Feb 2025 – Apr 2025

Conversational AI : Python, Google Speech API, Coqui TTS

- Engineered a conversational AI by integrating voice input/output using Google Speech Recognition and Coqui TTS.
- Fine-tuned speech models and customized voice parameters to create a natural and engaging user interaction.
- Conducted iterative testing to optimize response speed, voice clarity, and overall communication quality.

EXPERIENCE

ANTERIX Club

March 2025 – July 2025

Design Team Core Member

VIT Bhopal University

- Designed promotional materials, including digital posters and social media graphics, to increase visibility for club events and workshops.
- Collaborated with leadership and marketing teams to develop a cohesive visual brand for club initiatives.
- Contributed creative concepts for various club activities, enhancing student engagement and participation.

EDUCATION

VIT Bhopal University

Bhopal, MP

Bachelor of Technology in Computer Science

Sept 2023 – May 2027

CERTIFICATIONS

- The Bits and Bytes of Computer Networking, Coursera

ACHIEVEMENTS

- Participated in GFG Vultr Cloud Innovative Hackathon
